

FIRST-TO-FINAL-MILE DELIVERS FASTER SHIPPING

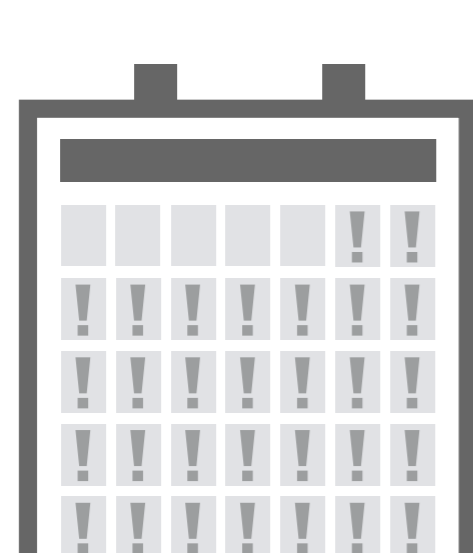

A furniture manufacturer was struggling to meet consumer expectations for product deliveries. Schneider First-to-Final-Mile was brought in to streamline the delivery process.

THE SITUATION

Coordinating multiple carriers created inefficiencies and a lack of visibility

Outdated shipping model took 11 to 30 days to ship a product to its destination

Consumers expect online orders to arrive at their homes within 4.5 days

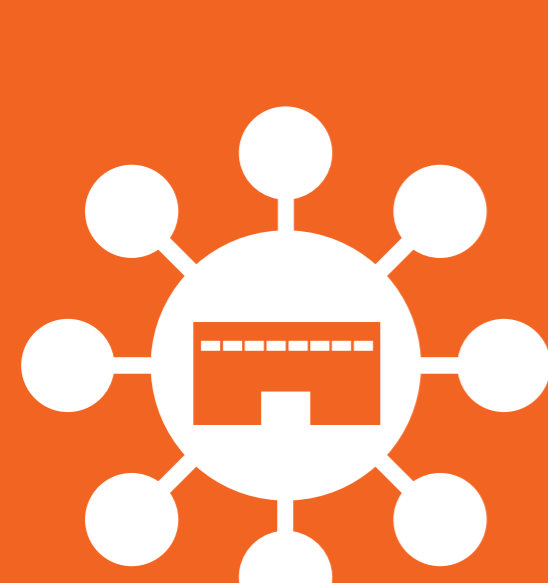

THE SCHNEIDER SOLUTION

Provided the manufacturer with one point of contact to make managing shipments more efficient

Schneider First-to-Final-Mile replaced the manufacturer's multiple carriers to streamline the shipping process

Implemented a hub and spoke shipping model to keep products moving daily

THE RESULTS

GAINED VISIBILITY
INTO THE PROGRESS
OF SHIPMENTS

**DELIVERED TRANSIT
TIMES UP TO
5X FASTER**

**ACHIEVED
95 PERCENT
ON-TIME DELIVERY**

Schneider First-to-Final-Mile delivered a streamlined shipping process that decreased transit times to meet or exceed consumer expectations and provided much-needed visibility into the shipping process.

Learn how Schneider can help your company deliver over-dimensional goods more efficiently.
