

MANUFACTURER OPTIMIZES IMPORT SUPPLY CHAIN THROUGH STRATEGIC ANALYSIS

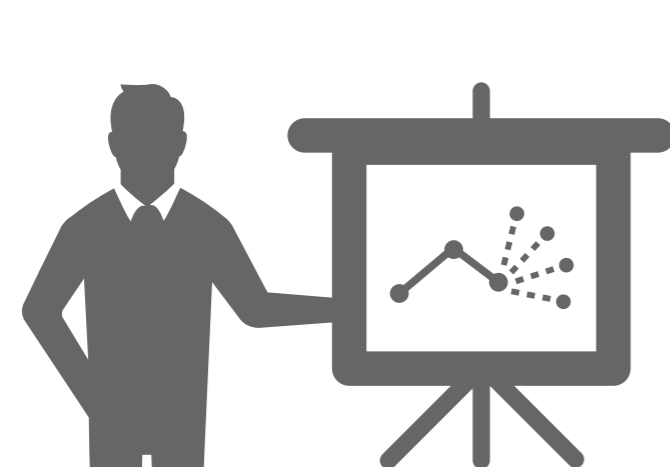

A global medical supplies and equipment company was experiencing a disjointed supply chain with efficiency gaps after steadily expanding its nationwide footprint. Minor annoyances increasingly became red flags, and the company knew it was ready to make a change.

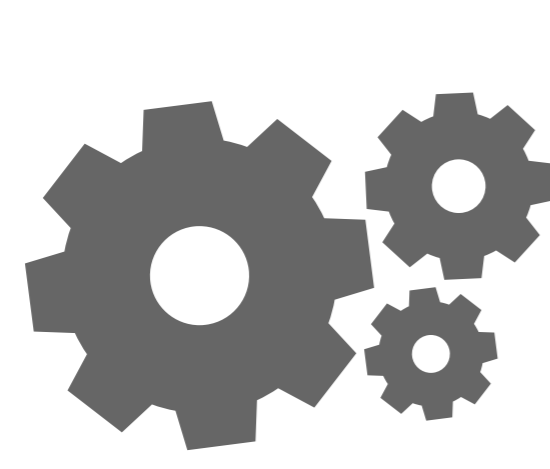

THE SITUATION

The medical supplies company initially only sought improvement at the Chicago ports

Addressing one piece of the supply chain set in motion a comprehensive analysis of import processes

The outcome required a strategic, more holistic approach to the import supply chain

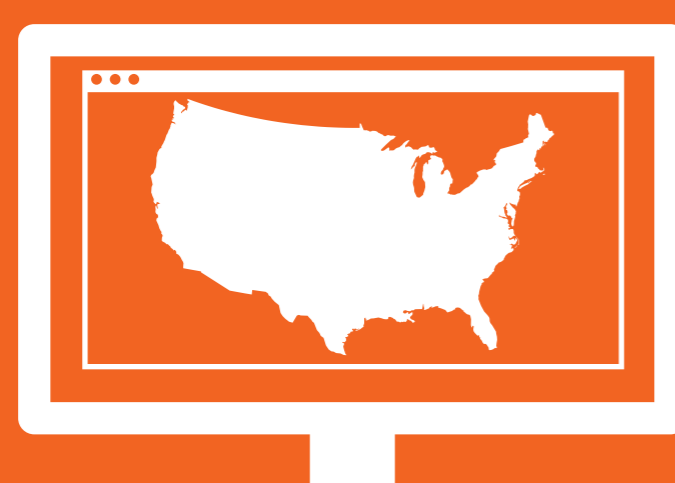

THE SCHNEIDER SOLUTION

Network-wide enhancements to Chicago, Savannah, Houston and Norfolk dray lanes

Holistic import supply chain management

A comprehensive supply chain analysis and West Coast transloading optimization plan

THE RESULTS

**REDUCED
DEMURRAGE AND
DETENTION FEES**

**IMPROVED DELIVERY TIMES
AND ACCURACY
ON RECEIVING**

**REDUCED WAIT
TIME AT THE
WAREHOUSE**

**ENHANCED
UTILIZATION OF
THE OUTBOUND
TRAILERS**

By leveraging Schneider's port logistics expertise, the medical supplies company not only got greater visibility into its freight and insight into how to be a more strategic importer, but realized a better bottom line as well.
