

MANUFACTURER SAVES **MILLIONS**

WITH PORT-TO-DOOR SOLUTION

Damaged goods and delayed deliveries hurt this leading motorcycle manufacturer's bottom line. Schneider tailored a port-to-door solution to optimize the manufacturer's supply chain and cut costs.

THE SITUATION

Product mishandling and excess transfer points resulted in costly product damage

Previous LTL provider's lengthy and inefficient hauls increased shipping costs and timelines

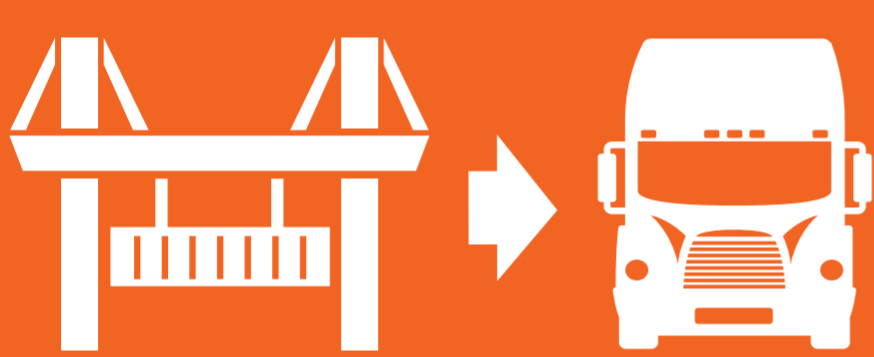

Inadequate inventory insight made forecasting and seasonal surges difficult to navigate

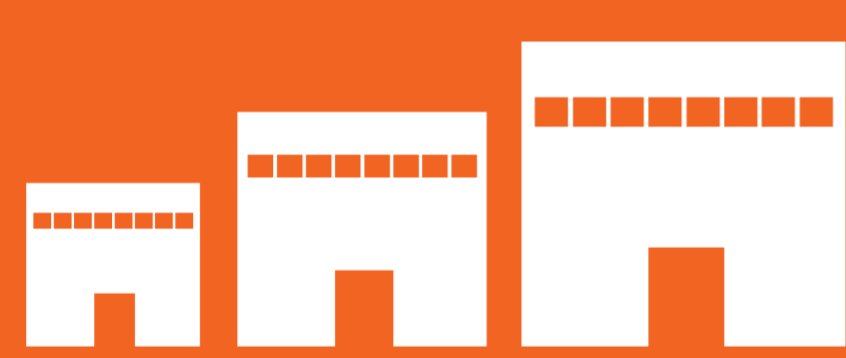

THE SCHNEIDER SOLUTION

Schneider's trained warehouse team and professional drivers prevented product damage

Schneider's port proximity, product pooling and intermodal service created efficiencies

Schneider easily flexed warehouse space when seasonal volumes tripled

THE RESULT

**CLAIMS-FREE
DELIVERY INCREASED
99.85%**

65% **ROI IN
2017**

**SAVED THE
MANUFACTURER
\$3.6 MILLION
OVERALL**

The manufacturer met its growing sales goals without increasing costs. Schneider delivered a more comprehensive supply chain solution while exceeding expectations by delivering products in flawless condition.

Find out how Schneider can implement a stronger supply chain solution across your business.
