

## OPTIMIZED WAREHOUSE SOLUTION IMPROVES PRODUCTIVITY

A global omnichannel retailer felt pressure for its customers to have a seamless shopping experience whether it was online or in-store. It needed to have the right inventory available with effective processes in place to allow product to flow efficiently in and out of the warehouse. With one warehouse struggling to keep pace, it put the retailer's profitability at risk.

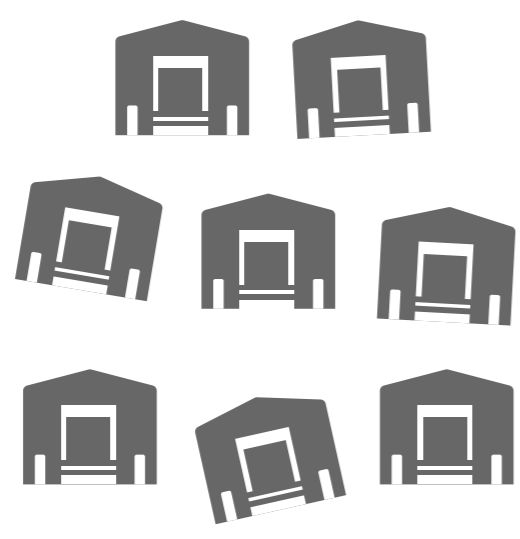

### THE SITUATION

Ongoing productivity issues caused low cases per hour (CPH)

Performance issues created tension between teams

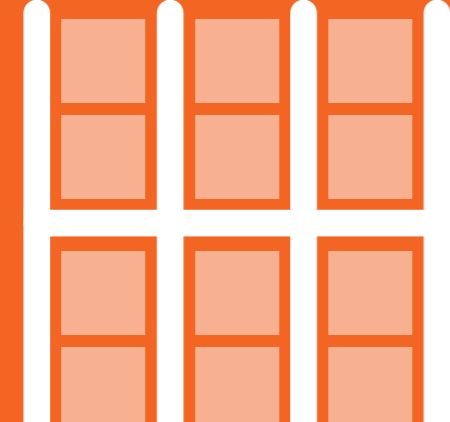

The disorganization negatively impacted eight distribution centers

### THE SCHNEIDER SOLUTION

Identified ways to improve CPH with a gap analysis

Installed a permanent hard racking system to improve efficiency

Improved inventory management procedures and implemented lean methodologies

### THE RESULTS

**\$1.8 MILLION ROI**  
FROM HARD RACK INVESTMENT

**\$1.58 MILLION**   
IN LABOR COST SAVINGS  
(INCLUDING A 59.3% REDUCTION IN OVERTIME)

**\$323,000 IN SAVINGS**

FROM IMPROVED INVENTORY VISIBILITY AND TRACKING

Schneider's extensive warehouse expertise drove significant operational performance improvements. The retailer experienced significant cost savings and year-over-year growth, hitting the trifecta of productivity, quality and profitability.
